## PROFESSIONAL SUMMARY

Frontend Developer with 6 months of professional experience at Shivvilon Solution, specializing in building responsive, scalable, and high-performance web applications using React.js, TypeScript, JavaScript (ES6+), and Tailwind CSS / Material UI. Skilled in comprehensive state management (Redux Toolkit, Context API), client-side routing with protected routes, seamless REST API integrations (Axios/Fetch), and AI-assisted development tools (ChatGPT, Claude, Gemini) to deliver robust, maintainable, and modern software solutions.

## TECHNICAL SKILLS

|                         |                                                                                                            |
|-------------------------|------------------------------------------------------------------------------------------------------------|
| Frontend Technologies:  | React.js, Next.js (Basic), Electron.js (Basic), TypeScript, JavaScript (ES6+), HTML5, CSS3                 |
| State & Navigation:     | Redux Toolkit, Context API, React Hooks (useState, useEffect, useContext), React Router (Protected Routes) |
| UI & Styling:           | Tailwind CSS, Material UI (MUI), Responsive Web Design, Flexbox/Grid, Component Architecture               |
| APIs & Backend:         | REST API Integration, Axios, Fetch API, Asynchronous JavaScript, Firebase (Firestore, Auth)                |
| Developer Tools:        | Git & GitHub (Version Control & Collaboration), Vercel Deployment, VS Code, Postman, npm                   |
| Core Competencies & AI: | Problem Solving & Debugging, Performance Optimization, AI Tools (ChatGPT, Claude, Google Gemini)           |

## PROFESSIONAL EXPERIENCE

Frontend React Developer | **Shivvilon Solution**, Rajkot (Gujarat) 22 Dec 2025 – 17 Jul 2026 (6 Months)

- Developed responsive, accessible, and reusable UI components for production web applications using React.js, TypeScript, and Tailwind CSS.
- Implemented robust state management workflows across complex features using React Hooks, Context API, and Redux Toolkit.
- Integrated backend REST APIs using Axios and Fetch API, managing loading spinners, error boundaries, and asynchronous data flows.
- Configured client-side routing, query parameter handling, and Authentication with Protected Routes using React Router DOM.
- Collaborated actively using Git and GitHub for version control, branch management, code reviews, and team pull requests.
- Utilized AI-assisted developer workflows (ChatGPT, Claude, Gemini) for rapid problem solving, debugging, and feature prototyping.

## PROJECTS

**Hotel Management System** — React.js, Python FastAPI, Axios, Tailwind CSS, Vercel [Live Demo: hotel-management-pi-self.vercel.app](#)

- Engineered a full-featured hotel booking platform with admin authentication, room reservation workflows, and automated checkout.
- Integrated Python FastAPI backend endpoints via Axios for real-time room availability status and billing calculations.
- Implemented dynamic room status logic where booked rooms switch to Booked and checkout actions reset rooms to Available.
- Built an intuitive, mobile-friendly interface using Tailwind CSS and deployed the production build on Vercel.

**Manufacturing & Inventory Management System** — React.js, Electron.js, Material UI, State Management Desktop Application

- Developed a cross-platform desktop application utilizing React.js and Electron.js for factory production and inventory tracking.
- Designed dynamic forms, multi-step purchase orders, inventory updates, and tabular dashboards with Material UI (MUI).
- Optimized state architecture and component lifecycle to ensure smooth high-frequency data entry and reliable UI rendering.

## EDUCATION & SOFT SKILLS

**Bachelor of Computer Applications (BCA)** — University of Kota, Rajasthan Graduated

**Soft Skills:** Problem Solving & Debugging, Quick Learner, Analytical Thinking, Team Collaboration, Clear Communication, Attention to Detail.
